PRINCIPAL'S MESSAGE :

You can teach a student a lesson for a day; but if you can teach him to learn by creating curiosity, he will continue the learning process as long as he lives.

Schools today have been entrusted with the responsibilities, a lot more than just educating the child. The challenge is not to reform education in schools but to transform it to enable all our young people flourish and succeed in the twenty-first century, when Robotics and Artificial Intelligence has become a way of life.

We, students, teachers and staff at **Chanakya Public School, Lodhma** see every day as an opportunity to do small, simple things in a great way so that the toughest targets may be achieved. We believe, life may bring with it many challenges but challenges like pain are short lived and momentary and get subsided by persistence and dogged determination; the trait that makes us stand out.

Aryan Sir

Principal
